

***Kumihimo* braiding disk pattern**
by Andrew B. Watt
<http://andrewbwatt.com/>

1) cut out disks, paste to 3/8" thick stock; 2) scroll saw edge, and 32 notches; 3) drill out center hole.

4) Use embroidery floss and free *kumihimo* patterns online to braid bracelets, necklaces, and other strings, either with or without beading along the way.
5) Have fun!
